

Millennium Bulk Terminals **Millennium Overview**

MILLENNIUM BULK TERMINALS

Millennium Bulk Terminals-Longview is an operating bulk materials port on the Columbia River. Millennium is committed to the environmental clean-up and redevelopment of this site into a vibrant, world-class port facility that will create family-wage jobs and help keep Longview and Cowlitz County working.

REVITALIZING A VALUABLE PORT FACILITY IN WASHINGTON STATE

Millennium is currently engaged in the clean-up and redevelopment of the former Reynolds aluminum smelter site. This 530-acre site has been underutilized for more than ten years. Millennium is working with Alcoa, as well as state and local agencies, to clean up the site and redevelop it into a world-class import-export facility.

To realize the vision for a safe and productive import-export facility, Millennium removed unpermitted structures and outdated industrial equipment. These activities have improved the environment and provide stable family-wage jobs and vital tax revenue for Longview, the region and Washington state.

MILLENNIUM FACTS

- Current operations include importing alumina, which supports 467 jobs in Central Washington.
- Once fully operational, the terminal is expected to produce 300 direct and indirect full-time, family-wage jobs.
- According to an economic analysis by Berk Consulting, revitalization of the site will result in 2,650 direct and indirect jobs during construction.
- Construction will generate \$37.2 million state tax revenues and \$5.9 million in county tax revenues.
- Construction activity is estimated to support \$70 million in direct wages, and \$232 million in direct output.
- Ongoing site operations are estimated to annually generate \$2.2 million in state tax revenues, \$1.7 million in county tax revenues, and \$1.5 million to special purpose districts.
- At buildout, ongoing site operations are expected to produce \$16 million in direct wages, and \$49 million in direct output per year.

A message from
BILL CHAPMAN
PRESIDENT AND CHIEF EXECUTIVE OFFICER

At Millennium Bulk Terminals - Longview, we know fulfilling the remarkable potential for our facility requires careful planning, hard work and a commitment to community. Our objective is to provide a responsible, productive and prosperous global port facility here on the Columbia River.

There are a number of reasons to be excited about revitalizing and developing a world-class port facility in Longview: the geographic advantages, market demand for bulk products and its established industrial use and zoning are just a few. But the most exciting thing about our enterprise is that we have the opportunity to build this facility the right way.

Millennium is coordinating with local, state and federal regulatory agencies to ensure we obtain the proper operating approvals. We are committed to the redevelopment of a world-class port facility that couples a global reach with local benefits for Longview, Cowlitz County and Washington state.

***We are building a brighter future for Longview and Cowlitz County.
Working together as a community, this redevelopment will succeed.***

ECONOMIC IMPACTS OF THE COAL EXPORT TERMINAL

	CONSTRUCTION	OPERATIONS (STAGE 1)	OPERATIONS (BUILDOUT)
